To the Honorable Senate and House of Representatives in Legislature assembled:—

We the undersigned would respectfully represent that we are and have for a number of years been engaged in lumbering on the West Navigation River that said River is small and on account of there existing no large pond or lake in the same and being a quick and rough stream makes it difficult and uncertain stream to drive—it is now to be a common for driving and requires a large outlay of money and labor to improve the same—that no individual is able to sustain the same or body of individuals without remuneration. We therefore respectfully pray that we or associates may be incorporated into a company to be called the WEST RIVER SLIDWAY AND DRIVING COMPANY, with power to take and pay for the improvements now made and to make such others as are necessary on said Stream and its tributaries, and to take and drive the logs from year to year in said River, receiving for the same a toll on all logs cut into and passing down said River in remuneration for the same and expenses they will be obliged to expend upon the same and your Petitioners as in duty bound, &c. &c.

MRS. E. KIDDER'S Cholera, Dysentery,

.....AND.....

Diarrhœa Cordial,

—IS—

Immediate and Perfect Remedy,

....FOR....

Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement.

It has been before the public for more than seventeen years and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE OF THE CHOLERA.

It has been thoroughly tested in every country and every climate, and its effect has every where proved the same.

SURE TO CURE,

even where the disease has advanced to its last stages.

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA both at home and abroad and of the little success which has thus far attended the attempts to check its frightful inroads on human life.

Such being the fact, it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera and eradicating it from the system.

Mrs. Kidder would most respectfully call the attention of the public to this invaluable medicine known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the Cordial at hand as if timely administered but little danger can be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state however severe the attack may be, or however low the patient may have become it invariably restores.

The Severest Cases of Dysentery

are immediately counteracted, the pains allayed, the bowels healed and not of frequently the bowels become perfectly regulated and restored in the short space of time or twelve hours.

Chronic Diarrhœa,

Either in children or adults of months or years continuance is speedily cured with this Cordial. It is a thing they may be reduced to mere skeletons, it immediately strengthens and shortly restores them to perfect health.

Cholera Infantum

It has saved the lives of many hundred children when reduced to the last stage by the complaint—there is nothing equal to it for relief and speedy recovery.

Sea Sickness.

It is a most pleasant and certain remedy for Sea Sickness. It checks the vomiting and speedily restores the patient. It invariably checks vomiting produced by any other cause whatever.

Children that are Teething,

should be provided with this medicine as it will keep the bowels regulated and keep off the Cholera. It is wholesome, safe and pleasant to the taste, and children are fond of it and will take it without trouble or dislike.

For General Debility and Dyspepsia,

it is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach.

The public may rest assured that it contains no other opium or mineral substances, or anything that is in the least an injury to the constitution.

CAUTION.

Be sure that you obtain MRS. E. KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article which has ever been in the highest estimation by the public throughout the whole country.

It is put up in bottles holding nearly a quart, intended for family use and sold at One Dollar per bottle.

McKENNEY'S COSSACK SALVE!

An Invaluable Remedy!

HAVING Fever Sores Rheumatism, Swelling of the Limb and Limb Swelling Old Long Sore Legs Old Ulcerated Ulcerous Sores Scrofulous Diseases Rigid Cords (contracted) Colds Strains Stiff Neck Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness of Parts in the Stomach Piles Corns Warts and Ulcerous Sores and Cuts and Bruises of all kinds.

In bringing this article before the public we are aware that we labor under no small disadvantages about the multitude of All Healing Ointments and "Nostrums" that are now advertised as the "*most effectual*" and *certain cures* for all diseases indiscriminately to which man or animals are subject.

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a perusal of which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all healing properties.

To say indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, for such, we are richly paid and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent.

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the "bought certificates" of individuals, and shall make use of them only so far as they have been or hereafter may be, entirely *voluntary* and *unsolicited*.

The Salve is now before the Public!

They, and they alone will decide upon its real virtues and medicinal properties. To say less were unjust to ourselves—to say more would be superfluous.

Here are some of the many Certificates:—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee. After trying many remedies without success I applied some Salve obtained of Mr. A. M. McKenney and continued its application until I had used five bottles which entirely cured me and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success.

DANIEL SEAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure without success which cost me about forty dollars, I bought 14 oz of AMASA M. McKENNEY'S SALVE which effected a sound cure in less than two months.

BANGOR June 5 1846

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operations, I was induced by a friend to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed to my great satisfaction that it was an invaluable article. I also made application of it in cases of Cuts Sprains and Bruises upon my cattle and found it equally beneficial. It can truly be called the All-Healing Salve.

The way they do it.

On Tuesday evening it became apparent that the Hunker or Hodgdon wing of the locofoco party were beaten, as far as numbers of delegates in the Convent on held to day was concerned The returns of published in the Age show at least one hundred and fifty Hubbard delegates to seventy five of their stamp, and, though somewhat of the Hunker strength lay in sections of the State not yet heard from, it could not be hoped but that the friends of Dr Hubbard would be in a clear and invincible majority when the polling for a candidate to day should commence Under this conviction, what did our Hunker friends do?

Within three weeks you might have heard their loud voices in the streets, the hotels and all places where people gather and talk To brag of their own, to denounce their opponents, was the burden of their song They were then full of indignation at the idea that Kennebec, the weakest, frailest sister in their household—in fact, the one who had never possessed what they esteemed virtue—should presume to force upon them a Governor They declared that it should not be so, they swore by all which they deemed holy, that Col Hodgdon, or some other man to be put forward by them, should be the nominee, or, come weal or come woe they would bolt! The disgrace of being beaten in their own ranks by the Barn burning disorganizers, they would never submit to They would disorganize first The vitality of democracy was gone, if such an enormity came to pass In short, they threatened the direst vengeance if the Barnburners insisted upon their opposition, and avowed themselves prepared to bring about in such event, the only real evil in this world which the locofoco party admits the loss of votes a minority at the polls

What has come of all these loud, irrepressible swellings of Hunker hearts and voices?

'Watchman tell us of the night

Why, they are to-day as mild as doves Three short but busy weeks have passed Beaten, they kiss the rod, exhibiting to the gaze of all a christian resignation Without strength enough even to back their pretensions to any share of the plunder which the expected victory at the election will bring in, they are silent as to factious opposition They are even ready to say that they never meant to oppose Dr Hubbard, and presently we shall hear the warmest friends of Col Hodgdon, mark it, the very warmest friends, wondering why there should have been the slightest opposition to Hubbard and why another should have been named as a candidate They are quiet, peaceable, inoffensive Accounted, by unwitting spectators the very lions and tigers of their party, who would dream now that they ever had fangs and shaggy manes? Why, they hardly lash their tails—None would guess that it was even fly time

And now would that our own friends would take home this lesson What if they do go for their instruction into the ranks of the fallen angels Seize good wherever it is found And do ye, who are banded in a high, and holy cause, fighting a good fight for your faith and principles, imitate the example of these men, who claim no higher bond of association than the booty of a successful fight With no aim but plunder, with a faith in nothing but the doctrine of any how and at all hazards holding all they they have and getting all they can, they exhibit the fine spectacle of union and actual and effective harmony Reprobate their doctrine as ye will, respect their perseverance and their unanimity, and 'go ye and do likewise

The Democratic Convention at Portland to-day.

The steamer Governor set out yesterday morning with a load of Penobscot emigrants to Cumberland County The decks were crowded Many detachments arrived in town on Tuesday night from various sections of the County, and were yarded during last night, and got on board the steamer at an early hour in the morning They seemed all in good spirits, and full of animal on, and we must confess we liked to see them so A good warm stir in a party promotes healthy secretions, purges the biliary ducts, and tends to the general health of the whole animal

One morning of last summer some of us set out upon one of these expeditions, which was crowned with happy success, a success which we believe that none who then looked upon it unsuspiciously have since regretted Stir, activity vigor, life, motion, are the words that speak of party efficiency Our democratic friends in this section of the shire wing have been active enough in this canvass for the convention, and, if it were not too much to hope, they should have our prayers that all who started yesterday should come been satisfied and cheerful

Father Mathew.

Extensive preparations have been made in New York for the reception of Father Mathew He is to land at Staten Island and remain there all night, the next day a committee of the Corporation, with some 400 others, are to go down in a steamer of the first class, and bring him up to Castle Garden, where he will be presented to the mayor and a large company of ladies and gentlemen, thence he will proceed to the Park and be presented to the citizens generally, and thence be taken to his lodgings The night following, there is to be a Grand Temperance Rally at the Broadway Tabernacle After remaining about five days in New York, he will come on to Boston, where he will probably be on the 4th of July, and one Sunday, to preach in the Catholic Cathedral Arrangements are in progress for a reception of the Apostle of Temperance in Boston, which shall not be exceeded by any that he shall elsewhere have

Special Meeting

IN BOARD OF ALDERMEN, June 25, 1849

The Resolve fixing the salaries and other compensation of the several city officers finally passed

Report of the Committee on Fire Department on the application of Jos W Whitney and al to have Engine No 5 removed to North Bangor accepted in concurrence

Orders passed in concurrence—

For the Chief Engineer to put Engine No 5 in good working order, and place the same in the hands of a company to be organized at North Bangor, where such company shall be organized, and suitable arrangements shall have been made to keep said Engine in good order

For the Commissioner of Streets to make that part of Hancock street which which lies between Newbury and Pearl streets

For the City Marshal to cause the City Hall to be painted on the outside

An order rescinding the order passed May 28th last, directing the Street Commissioner to clear all obstructions from all streets and squares

The following Order was passed by the Board of Aldermen, but non concurred and passage refused by the Common Council, and subsequently indefinitely postponed in concurrence

Ordered That the Mayor and City Solicitor be authorized to adjust and settle the dispute which has arisen between the city of Bangor and P B Mills, in regard to State Street and the location thereof, and the rights of the City and the public to the easement, arising from the laying out of said street or a dedication thereof by the proprietors of the Budge lot or No 11, so called, and in regard to the limits of the rights of said Mills, and full powers are hereby given to said Mayor and Solicitor to have the same settled as speedily as possible in such manner and by such tribunal as they may determine to be best

Surveyor Hathorne.

Mr Nathaniel Hathorne who has lately been removed from the Surveyorship at Salem, Mass, writes to George S Hillard, on the subject of reports about his removal He seems very desirous to prove that he hasn't been an active politician—didn't do anything as a member of the Salem Town Committee, didn't write politics for the Salem Advertiser, never walked in a torch light procession and wouldn't, if the election of President depended upon it, and hadn't written for the Democratic Review for three years Such tales as these, once told, will so satisfy his democratic friends that he will not be troubled to take up the cares of office again

☞ A letter from Vermont states that millions of pigeons have descended on the cornfields in the Northern part of the State, probing the earth for the grain that was planted, and leaving, in some instances, not a dozen unplundered hills to the acre The farmers were employing boys to remain constantly in the field to frighten away these depredators

A place among the mountains of that section called the Little Notch consisted of three hundred acres of forest, the trees of which were said to be literally loaded with the nests of the pigeons

☞ Holden's Dollar Magazine for July is out This number of this cheap and valuable periodical contains portraits of Hans Christian Anderson and the Rev Dr Sprague of Albany It may be found at Bugbee's

☞ The Democrat in speaking of the press supported by the other wing of its own party, observes—"The *Goat's Wool* Jeffersonian continues to wallow in his own mire

☞ Capt Grant is the name of the man under whose superintendence the crevasse above New Orleans was at last stopped

☞ The Democrat says that the administration, 'has gone into villages and disturbed little post offices

☞ Thanks to Capt Coles, of Bryant & Co's Express for papers received on yesterday in advance of the Mail

☞ Thanks to Hodgman and Co's Express for a fine lot of papers by the Penobscot on yesterday

The Forest Fires in New Brunswick.

The St John New Brunswicker of the 16th inst speaking of the fires in that province, says it has received a letter from Fredericton under date of June 15, which says

There has not been such fires in the woods for many years as there are at present The river and the streets are completely covered with embers and burnt leaves persons are now at work carting water on their places of residence, and the engines are in waiting—the soldiers are confined to barracks, all to be in readiness in case the fire should enter the town—People are alarmed to a great degree, the smoke in town is so dense that you cannot see the sun In fact I can compare the city at present to nothing but a smoke house I am almost blinded from the effects of it The Supreme Court now in sitting, adjourned till to morrow, the room being so dark as not to permit their going on with business without the use of candles It is very calm at present Should the wind spring up there is no accounting for what will follow

In addition to the above, we learn from the head quarters that a large quantity of wood standing and cut has been destroyed in that vicinity, and that one farmer, Mr Duffy, has lost several hundred pounds worth of property in this way In the eastern section of the country the fires are also raging to a fearful extent Seventeen houses have been destroyed in Aberdeen county The woods on both sides of the road between Magnadavic and Musquash, are burnt the entire distance, except in occasional places

Later advices from St John via Boston state that the fire is still raging One whole village in the neighborhood of Charlotte was consumed, and a providential ebb tide which enabled the inhabitants to flee to the bed of the river was the means of saving their lives

The Hallowell Cultivator 'perpends the following. It must have been interesting to the 'fellow

The stupid fellow who addressed us an anonymous note headed State of Maine, 1849, had better mind his own business A man who will write slanderous anonymous letters, is either a knave, coward or a jackass—probably all three combined in this instance.

The Late Mr Polk.

The facts detailed in the following sketch of the life of the late President Polk adds another lesson to the many that the biographies of the eminent men of this and every other civilized country present, telling our youth, that industry regular habits punctuality and perseverance are sure of their reward In this instance the son of a land surveyor, who, burdened with a numerous and growing family, sought while it was then a wilderness the now flourishing State of Tennessee, attained the first elective position in the world and mainly by the exercise of qualities we have enumerated All of us cannot be Presidents, but all who will strive to use their faculties as well as Mr Polk did in his life use his, may be sure of success, whatever be their pursuit

The extract is from the New York Tribune

"James Knox Polk was born in Mecklenburgh county, North Carolina, Nov 2, 1795, and at the time of his decease was fifty three years and seven months old Some accounts make his ancestors Irish others Scotch—some say their original name was Pollock others that it was Polk We think it probable that they emigrated to the Colonies from the North of Ireland It appears that his branch of the family had resided in Maryland, in Pennsylvania, in North Carolina, and finally removed to Tennessee Andrew Jackson stated, in 1844, that he had known James K Polk from his boyhood, and that a citizen more exemplary in his moral deportment more punctual and exact in business more energetic and manly in the expression of his opinions, and more patriotic does not live

Mr Polk's father is, we think, still alive—he was a farmer, and removed to Tennessee in 1806, when James K was in his eleventh year—it is also said that he acted as a surveyor, and, with his family, had to toil hard for a living in the valley of the Duck River, then a wilderness James K is the eldest of ten children—acquired the rudiments of an English and classical education near his home and after years of suffering from a very painful complaint, was relieved by a surgical operation He gained high honors at the University of North Carolina—was assiduous, persevering, and regular in his attendance—a good mathematical and classical scholar—In 1819 he began to study the law with the celebrated Felix Grundy of Nashville was admitted as a member of the bar of Tennessee in in 1820, and was well employed in his line He served as clerk to the Tennessee Legislature, was next a member for Maury, his place residence, and in 1825, in his 30th year, elected to Congress He was opposed to a National Bank, he hesitated to express that opinion for the two first years in which he sat in Congress but after Mr Van Buren went to Washington as Secretary to wit in August, 1830 Mr Polk began to give the Tennesseans some hints about the monster Upward of twenty four years since he married the daughter of Joel Childers, Esq a merchant of Rutherford county, Tenn Mr Polk had no children—was unostentatious, quiet, domestic and religious—not fond of show, dancing, dissipation and late hours Mr Polk was a member of the Presbyterian church It is creditable to his credit that he has the reputation of being no duelist, no gambler, and a steady opponent to speculation He was fourteen years in Congress, and two or three of these Speaker, having been chosen in December, 1835 and in September, 1837 No more thorough going partyman could be found than Polk—he was very industrious, and while on the floor of Congress was reported never to have missed a vote As he received a vote of thanks at the close of the session for 1837, for his impartiality as Speaker, it may be inferred that he had great control over his temper He was a ready debater delivered long and animated speeches, and was one of the few hard working legislators in his day To those who saw him when on a visit to this city, during his Presidential term, his countenance and manner bore the impress of anxiety and care In his intercourse with the public he was affable and courteous his voice was strong and unmusical, he was clear headed, and capable of grasping, comprehending and explaining complicated matters of public interest, a polite and attentive listener and so regular and devout in early life that Gov Branch affirms that during the four years that he was at college, he [Mr Polk] never once missed prayers

His personal character was irreproachable—'Of Mr Polk as a private gentleman, and as known to us in his social and domestic relations, said the Editor of the National Intelligencer 'we have no disposition to speak otherwise than with entire respect.

Dignity of Labor.

The following good story, which is vouched for as true, is told in the New York Courier & Enquirer as illustrative of the present state of things in the new land of promise

The Captain of the St Mary went ashore with his baggage, and seeing a shabby, abject looking creature standing on the landing he asked him if he would carry his trunk to the hotel 'Certainly, said the fellow, "what will you give me? "Well, 'said the captain, "I'll give you a dollar "A dollar? 'Yes, repeated the Captain, 'I'll give you a dollar' 'Well now, look here, said the man, 'I'll give you five, if you'll carry your trunk *yourself* The Captain saw through the case, and closed the bargain He shouldered his trunk—carried it to the hotel, and was paid FIVE DOLLARS for doing it, by the man whom he had tried to hire for one! The most ragged, shabby, abject loafers about town all have their pockets filled with gold

Vegetable Balsamic Elixir.

The Great Northern Remedy for Consumption!

ALSO, the most efficacious remedy in the world for *Colds Coughs Whooping Cough Croup or Quincy, Asthma Pain in the Side or Stomach*, and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting* then removes the cause *educating it completely* from the system, when as a matter of course, the *cough ceases*, and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration* thus expelling by the pores of the skin, the noxious fluids and impurities of the blood the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We have received HOWANS ELIXIR is a specific for all the ills that flesh is heir to, but we doubt and do confirm by unquestionable evidence that for

CONSUMPTION,

And all diseases of the *lungs, the liver and the pulmonary organs* it is *unrivalled*—TO MILLERS it has been snatched from the GRAVE and hundreds who *delayed too long its use*, have found to the sad cost of all diseases that RELIEF FROM SUFFERING which they vainly sought from every other source

The INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and ½ oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four times the quantity of the *weak adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful Cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST ALBANS, VT to whom all orders for supplies of the most extensive kind should be addressed (stating the best mode of sending it)—also sold by agents in nearly all the villages and towns in the country

Extract from a letter of an eminent physician in Worcester Co, Mass., a member of the Massachusetts Medical Society

WORCESTER, Jan 30, 1849

"Dr Stephen Jewett

Dear Sir—I have used your *Health Restoring Bitters* in my practice and have found them very serviceable in *Dyspepsia Hemorrhoids General Debility* and generally in *Habitual Costiveness* I consider it one of the *best* remedies in use Yours &c IRA RUSSELL M D"

From one of the most eminent physicians in the state of New Hampshire

TEMPLE, N H, Jan 17 1849

"Dr S Jewett

Dear Sir—I have examined your *Pulmonary Elixir* and am well satisfied that it is *the full equal to any* in the community, as being what it purports to be, an efficient and *safe remedy for all* the diseases to which the *respiratory organs* are subject. It may be used with much *more safety* than almost any other medicine offered for this purpose, in consequence of the general absence of those organic and frequent fatal results of more drastic medicines of the class by reason of *their opiate character*, is, by this, *entirely obviated*.

The physician who should meet with it in families would find it a *ready assistant*, by which he would labor in the development of disease which would be obviated, and how effective for relief is essentially indeed

With much consideration I remain your faithful servant

A KINGSBURY, M D"

See what a very celebrated merchant and well known insurance agent says

PORTLAND, Me., April 21, 1849

Dr. Stephen Jewett

Sir—Having used your *Health Restoring Bitters* and *Pulmonary Elixir*, to a considerable extent, in my family, or rather I should say, I would be happy to bear testimony to the efficacy of those medicines, the former for *restoring loss of appetite, for headache, languor, and general debility*, the latter for *coughs* and *sore throat*.—In fact I think *no family should be without the remedies always at hand* common *frequently superseding the necessity of calling in a physician*

Your obt servt, CALEB S CARTER

From George W. McLellan Esq, formerly a distinguished citizen of Maine now of the city of Boston.

BOSTON, June 3d, 1849

Dr. Stephen Jewett:

Dear Sir—I used your *Pulmonary Elixir* in my family last year or more and it has proved *decidedly the best cough medicine I have ever known* I shall be at all times recommended it to all who may require such a medicine

Respectfully yours, GEO. W McLELLAN

GRAY HAIR can be restored to its original color or whether Auburn Brown or Black and Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair by use of O M Lillard's

Permanent Liquid Hair Dye,

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public It is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and dyeing it with the Dye which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is innocuous On the contrary, it improves the lustre of the hair, promotes its growth, and prevents it from falling out and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out

In short, from its peculiar delicacy softness, and easy application it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade from a white to a jet black It is now used to an unaccountable extent by persons who have prematurely turned gray and others whose Hair is of an undesirable color which they restore or exchange for the beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR and DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA*. Being poor he was compelled to limit its manufacture by which means it has been kept out of market and the sales of course confined to those only who had proved its worth and known its value It had reached the ears of many nevertheless as those persons who had been healed of severe diseases and saved from death proclaimed its excellence and wonderful

Any person can boil an old shoe sole till they get a dark colored liquid which can be made from the coloring matter in the root than from any thing else they can then strain this to spoil or vary liquid sweetened with honey molasses and then call it SARSAPARILLA EXTRACT or SYRUP! But such is not the article known as the
